NEW YORK MONEY.

New York, Oct. 14.—Money on call at the stoce exchange to-day opened at 4% per cent; highest, i lowest, i; closing, i. Most of the day's loans wer made at 4% per cent. Still higher rates were quoted for time money

Demand continued to grow in volume, but bank Demand continued to grow in volume, but benks were unwilling to loan for sny maturity short of four mouths, and consequently rates for the shorter maturities, as well as the longer dates, moved upward. For sixty and ninety-day loans 5 per cent was quoted, and four mouths' money also commanded that rate. For five and six months quotations were marked up to 4%a5 per cent.

The market for sterling to-day was easter, with rates below yesterday's final level. Rates for actual business closed as follows: Sixty days, (8.82564.8260; demand, 4.83664.8605; cables, 4.8655.

Commercial bills were 4.81 for ninety days and 4.82a4.82½ for sixty days. Flour bills, 4.82½ for sixty days, Grain, 4.83.

Indications was the fact that the market did not decline in spite of a threatened advance in the bank of England's dissount rate to 4 per cent and that also even in the London market the probability and practical certainty of such an occurrence did not seem to be disturbing.

London Market's Advance.

To-day, therefore, before the opening of business here, when the directors of the Bank of England did not raise their discount rate to 4 per cent, the London market immediately advanced, showing the event had been discounted there.

The worst that can happen from a speculative point of view in this regard has doubtless already happened, and the English stock market moved, therefore, today as it normally does under such conditions.

Here the resilience of the market was even more noticeable. There was a rush to buy stocks from the very opening of business which however was diversity of the said of the

There's a big difference between making money and having money.

What is the use of making money if you are no better off at the end of the year? Old age is coming, when your earning capacity is bound to decrease. Better save a portion of your earnings and let it accumulate in this strong bank for future needs. The 3% interest we pay will help it to grow.

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from 5500 upward. Send for bookiet, "Concerning Loans and Investments."
